The Gas Supply to Kremikovtzi Has Not Been Stopped

The management of Kremikovtzi would like to inform that the situation in the plant is under control, the supplied gas is sufficient to maintain the operations of the plant and there is no danger threatening the health and safety of the people working in the plant as well as of the citizens of Sofia. The management of Kremikovtzi would like to thank Bulgargas AD and the government for their cooperation and understanding in relation to the decision for not stopping the gas supply of the plant. Yesterday this was announced officially by Bulgargas AD with a notification, signed by the management of the state-owned company, send to the Management Board of Kremikovtzi AD.
